Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfeetly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at 50.

Age is not a time for harsh physics. Washington, Nov. 22.—Elihu Root of Youth may occasionally whip the bowels into activity. But a lash can't be used every day.
